

Medication Administration Training for School Personnel

Minnesota State Community and Technical College announces two training options

*** Online**

*** Onsite**

*** Online:**

A four (4) hour online training course is available to provide North Dakota school personnel basic knowledge of medication administration to safely provide medications to students in the school setting. Successful completion of this online training course will require participants to view a lecture/slide presentation and skill demonstration videos, complete a post test, and demonstrate eight (8) medication administration skills in the presence of a ND licensed Registered Nurse identified by the employing school of the course participant. The online course includes an instruction sheet for the RN and checklist. The RN should indicate his/her ND RN license # as verification. The 8 medication administration procedures observed include: putting on and removing gloves, application of oral, liquid, topical (cream or ointments), eye (drops or ointments), ear drops, nasal spray and metered dose inhalers and should take no more than 20-30 minutes.

The online option gives participants the opportunity to work at their own pace with access to course materials for a period of two weeks. Completed course paperwork must be submitted within four weeks of the course start date to receive a certificate of completion; the four week timeframe allows schools sufficient time to schedule and complete the demonstration requirement.

Course fee: \$50 per person

Online sessions:

- ☐ January 4 – 18, 2016
- ☐ February 1 – 15, 2016
- ☐ March 1 – 15, 2016
- ☐ April 4 – 18, 2016
- ☐ May 2 – 16, 2016

Register for the online class at <http://minnesota.augusoft.net> or contact: *Denice Brewer* by phone (218) 299-6576 or (800) 426-5603 ext. 6576 or email (denice.brewer@minnesota.edu).

*** Onsite:**

Please contact Denice Brewer at (218) 299-6576 or (800) 426-5603 ext. 6576 (denice.brewer@minnesota.edu) to discuss and arrange onsite training for your school staff.
